

Ideation Phase

Empathize & Discover

Date	29 September 2026
Team ID	SWTID-2026-3488
Project Name	Import Data using Transform Maps (Spreadsheet)

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users. Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

PAINS

- Manual data entry is time-consuming
- Duplicate or mismatched records
- Unclear error messages when a row fails
- Fear of corrupting production data

GAINS

- Bulk import in minutes instead of hours
- Clean, duplicate-free target table
- Visible field mapping and audit trail
- Confidence to repeat the import
